BOOKSHELF

Debra Greschner

Debra Greschner

Debra Greschner reviews four recent publications. In *The Songs of Clara Schumann*, Stephen Rodgers presents analysis of this oeuvre of art songs. *Exploring English Lyrics: Selection and Pronunciation of English Art Song Repertoire* by Cherie Montgomery and Allen Henderson offers phonetic transcriptions of selected art songs in English. *Recorded Solo Concert Spirituals*, 1916– 1922, compiled by Randye Jones, catalogues commercially recorded spirituals for solo voice. Joanie Brittingham, in *Practicing for Singers: A Guide to Solid Practice Habits*, provides advice in creating successful practice routines.

Rodgers, Stephen. *The Songs of Clara Schumann*. Cambridge, UK: Cambridge University Press, 2023. Cloth, x, 193 pp., \$110.00 ISBN 978-1-108-83425-4. www.cambridge.org

Clara Schumann (1819–1896) achieved musical fame in her own right, separate from the renown of her husband Robert. However, much of the research about Clara Schumann has been focused upon her life and career as a pianist, while her compositional

Journal of Singing, November/December 2024 Volume 81, No. 2, pp. 231–234 https://doi.org/10.53830/sing.00088 Copyright © 2024 National Association of Teachers of Singing output has not received extensive analysis. Stephen Rodgers, professor of music theory and musicianship at the University of Oregon, presents a detailed study of her songs in this volume, as well as illuminating other issues relevant to her music, the music of her contemporaries, and Romantic song in general.

Rodgers postulates there are three reasons why the songs of Clara Schumann have not been the subject of more analysis. First, because she was primarily a performer, her career as a concert pianist has received the preponderance of attention by researchers. Second, her output of compositions is relatively small; she wrote fewer than thirty songs, and her total oeuvre consists of only sixty works. Finally, as evidenced by self-deprecating remarks in her writings, she doubted her prowess as a composer. All these factors, explains Rodgers, are consistent with the societal norms of the nineteenth century, including the expectation that women display modesty, humility, and deference.

The author asserts that Clara Schumann's songs are meritorious and deserving of expanded research and although the volume is focused on her songs, Rodgers also broaches questions about the analysis of music by other women composers, and of nineteenth century song in general. The author maintains that Clara's music must be studied independently from that of her husband, and that it, as well as works by other women composers, merits the same level of analysis afforded to works by male composers. Additionally, Rodgers states that Romantic song in general deserves detailed analysis of formal structure. To this end, he employs the principles of New Formenlehre, a subdiscipline of music theory that focuses on form. While other theorists have applied these tools to instrumental music, Rodgers avers that he is breaking new ground by using it exclusively on music with text.

The volume consists of two sections. The first discusses the context and style of Schumann's music while the second explores each song with particular attention to the influence of the poetry on the formal structure. In addition to expounding upon the three postulates listed above, Rodgers identifies broad characteristics of her vocal works: the use of expansive phrases, the propensity to minimize cadences, and creative employment of piano texture. The second section begins with a discussion of her twelve songs without opus numbers. Because these works span her compositional output, they serve to illustrate the development of her style. The fifteen songs with opus numbers (contained in opuses 12, 13, and 23) are discussed in the ensuing chapter. These songs reflect Schumann's preference for strophic form; the analysis identifies the varied and unique ways in which she used this straightforward structure.

In the epilogue, the Rodgers encourages scholars to explore unknown songs by obscure composers. An example of such research is the author's contribution to *The Lied at the Crossroads of Performance and Musicology* (Cambridge, UK: Cambridge University Press, 2024; reviewed in *Journal of Singing* 81, no. 1 (September/October 2024), in which he discusses the songs of Marie Franz (1828–1891). Franz, who was married to Robert Franz (1815–1892) wrote only a few pieces for voice, but her work should not be overlooked.

This volume is an important contribution to the study of song literature.

Debra Greschner

Rodgers reiterates that the music of Clara Schumann, which is representative of many overlooked and understudied composers of nineteenth century lied, deserves the same indepth study that is afforded her male contemporaries. Readers interested the songs of Clara Schumann, and in Romantic Lieder writ large, will find it invaluable. It is highly recommended.

Montgomery, Cheri and Allen Henderson. *Exploring English Lyrics: Selection and Pronunciation of English Art Song Repertoire*. Lanham, MD: Rowman & Littlefield, 2024. Cloth, xvii, 288 pp., \$99.00 ISBN 978-1-5381-9268-9, \$125.00; Paper ISBN 978-1-5381-9269-6, \$49.00; eBook 978-1-5381-9270-2, \$46.50 www.rowman.com

In 2004, Cheri Montgomery published the Lyric Diction Workbook Series (Nashville, TN: S.T.M. Publishers, 2004; reviewed in Journal of Singing 62, no. 1 (September/October 2005): 104). The set provided International Phonetic Alphabet (IPA) exercises for Italian, German, French, and English corresponding to the commonly used diction textbooks for each language. In the intervening twenty years, Montgomery has continued to make important contributions to instructional materials for lyric diction. In addition to the resources for the languages mentioned above, she has written guidebooks to singing in Russian, Spanish, Latin, and Ukrainian, as well as practice journals, textbooks for diction study, and collections of song transcriptions and translations, including *Exploring Art Song Lyrics*: Translation and Pronunciation of the Italian, German, and French Repertoire

(New York: Oxford University Press, 2012; reviewed in *Journal of Singing* 69, no. 2 (November/December 2012): 235).

Montgomery's most recent publication, in collaboration with Allen Henderson, is a guide to the pronunciation of selected art songs in English. The volume begins with foundational diction material that has appeared in other books by Montgomery, including an overview of rules for transcription and a guide to English pronunciation. The bulk of the book, however, consists of phonetic transcriptions of lyrics. Exploring English Lyrics encompasses nearly 800 texts by 125 composers spanning five centuries. Most of the texts are settings by composers from the United States and Britain; however, there are more than a dozen from other countries, such as Canada, Australia, and South African. The authors characterize the scope of the repertoire ranging from beginning literature to that of professional singers.

The challenge in creating any anthology (unless it is comprehensive) is the selection process. In the introduction to the volume, Montgomery and Henderson explain that they chose frequently performed songs from the Royal Conservatory of Music Development Program and the First Book of Solo series edited by Joan Boytim, as well as works by new composers. The latter consideration is illustrated through the number of songs in this new volume that were written by contemporary composers, many of whom belong to groups that have been traditionally underrepresented. A cursory glance at the bibliography, which begins with African American composer Leslie Adams (1932–2024) and ends with the English woman Judith Weir (b. 1954), affirms an emphasis on inclusion and diversity.

The collection is replete with folk songs (including those arranged by Benjamin Britten) and spirituals (including those composed by H. T. Burleigh and Hall Johnson). Close readings of the entries and an overview of the catalogue, however, suggests that copyright considerations played a role in choosing songs for inclusion. There is an abundance of texts by writers whose works are in the public domain (such as William Shakespeare and Emily Dickinson). However, some of the most frequently performed art songs in English, such as "Sure on this Shining Night" by Samuel Barber (on text by James Agee) and "Early in the Morning" by Ned Rorem (on text by Robert Hillyer), are noticeably absent.

The omissions, however, do not undermine the usefulness of this compendium. For singers whose native language is English, the transcriptions are a useful tool in avoiding regional dialects and mispronunciations, and for singers whose native language is not English, this collection is a valuable resource. It is a useful addition to the studio library.

Jones, Randye, compiler. *Recorded Solo Concert Spirituals, 1916–1922.* Jefferson, NC: McFarland & Company, 2023. Paper, viii, 599 pp., \$75.00 ISBN 9781476684710 www. mcfarlandpub.com

Randye Jones has conducted extensive research into the genre of spirituals. She is the author of *So You Want to Sing Spirituals* (Lanham, MD: Rowman & Littlefield, 2019) which was reviewed in *Journal of Singing* 77, no. 2 (November/December 2020): 283–284) and the creator of

Bookshelf

the online sites "Spirituals Database" and "Afrocentric Voices in Classical Music." Her latest publication is a catalog of commercially produced recordings of spirituals that were composed for solo concert performers. Jones is a passionate advocate for the study and performance of spirituals by all singers, and she proffers this guide as a resource to the repertoire and its performance practice.

The volume contains more than 5,600 individual entries. Each item lists the title of the track, the composer, the name of the singer, voice type, publisher, publication number, release date, format, names and types of accompanying musicians, plus a description of the use of dialect. In the introduction, Jones illuminates the challenges inherent in creating the entries; for example, some recordings did not identify the singer's voice type, while others did not acknowledge the composer or arranger. She also lists the ten spirituals that were recorded most frequently ("Deep River"), the ten performers who appear the most often in the catalog (Paul Robeson and Marian Anderson), and the composer with the most entries (H.T. Burleigh). The entries for the most frequently recorded spirituals (twenty-nine songs that account for 58% of the entries) are prefaced with the Biblical source, as well as the art song collections in which they are found. Jones also addresses the use of dialect, both in an explanation in the prefatory section, and within each entry, where she uses a descriptor scale ranging from "no use" to "heavy use" of dialect.

There is an extensive bibliography, and the author also provides three indexes organized by general subject, song title, and musician. The research underpinning this catalog is impressive. The volume is an excellent resource for learning about the repertoire and performance practice of this important body of literature. It is highly recommended.

Brittingham, Joanie. *Practicing for Singers: A Guide to Solid Practice Habits.* Columbia, SC: CS Music, 2024. Paper, ix, 166 pp., \$25.00 ISBN 979-8-324-66371-1.

In the preface to this volume, author Joanie Brittingham acknowledges that there are traces of truth in the old saw that singers do not practice. While she does not elucidate the reasons (perhaps because singers are learning to play an instrument they cannot see, or because they begin formal studies later than many instrumentalists), Brittingham sets out to offer guidance in building effective practice habits for singers. She offers both rationale and structure for establishing practice routines.

Brittingham is an active singer and voice teacher, and she draws upon these roles to create this handbook about practicing. The author discusses the importance of intentional practice and cultivating a growth mindset. Several of the chapters are devoted to time management; in other chapters, the author offers specific advice about how to learn a piece (including musical, formal, and character analysis) and how to polish it. There is tutelage about how to start a practice session and knowing when to end it. Brittingham explains why and how to keep a practice journal, and provides useful tips about avoiding distractions, such as turning off cell phones.

Brittingham, who is the Associate Editor for *Classical Singer Magazine*, balances the philosophical with the practical throughout the volume. The text is replete with quotations from numerous and various expert sources, such as researchers John A. Sloboda and Carol Dweck, ranging from magazines and newspapers to podcasts and pedagogy texts, all of which are cited in the end notes. Many of the chapters offer recommended reading and resources, as well as downloadable charts and handouts. The volume is a brief, but bountiful introduction to effective practice. Students of singing will find this book a useful guide.

Debra Greschner, soprano, is a member of the voice faculty at Lamar University and founding member of its Vocology Certificate program. She holds a Bachelor of Music in Performance and a Bachelor of Education from the University of Saskatchewan, Saskatoon, and a Master of Music from the University of Nevada, Las Vegas (UNLV).

Before joining the faculty at Lamar, Greschner taught at UNLV, and was a member of the Nevada Arts Council's Artist in Residence roster. She is a member of the Pan-American Vocology Association (PAVA) and served as president of the Greater Houston and Las Vegas Chapters of NATS. Greschner has appeared as soloist with the Nevada Symphony, Symphony of Southeast Texas, Nevada Opera Theatre, Las Vegas Lyric Opera Company, Las Vegas Symphony and at Carnegie Hall's Weill Recital Hall.

Debra Greschner

In addition to serving as Associate Editor (Book Reviews) for *Journal of Singing*, she has written book reviews for *The Opera Journal* and *Italica*. Her article "The *Mélodies* of Félix Fourdrain" was published in *Journal of Singing* Volume 73, No. 5 (May/June 2017), and she authored the entry for Fourdrain in the *Grove Music Online*. She was a presenter at the International Congress of Voice Teachers in Vienna in 2022.
